PIRATE

the 1967 PIRATE
winfield high school
winfield, alabama

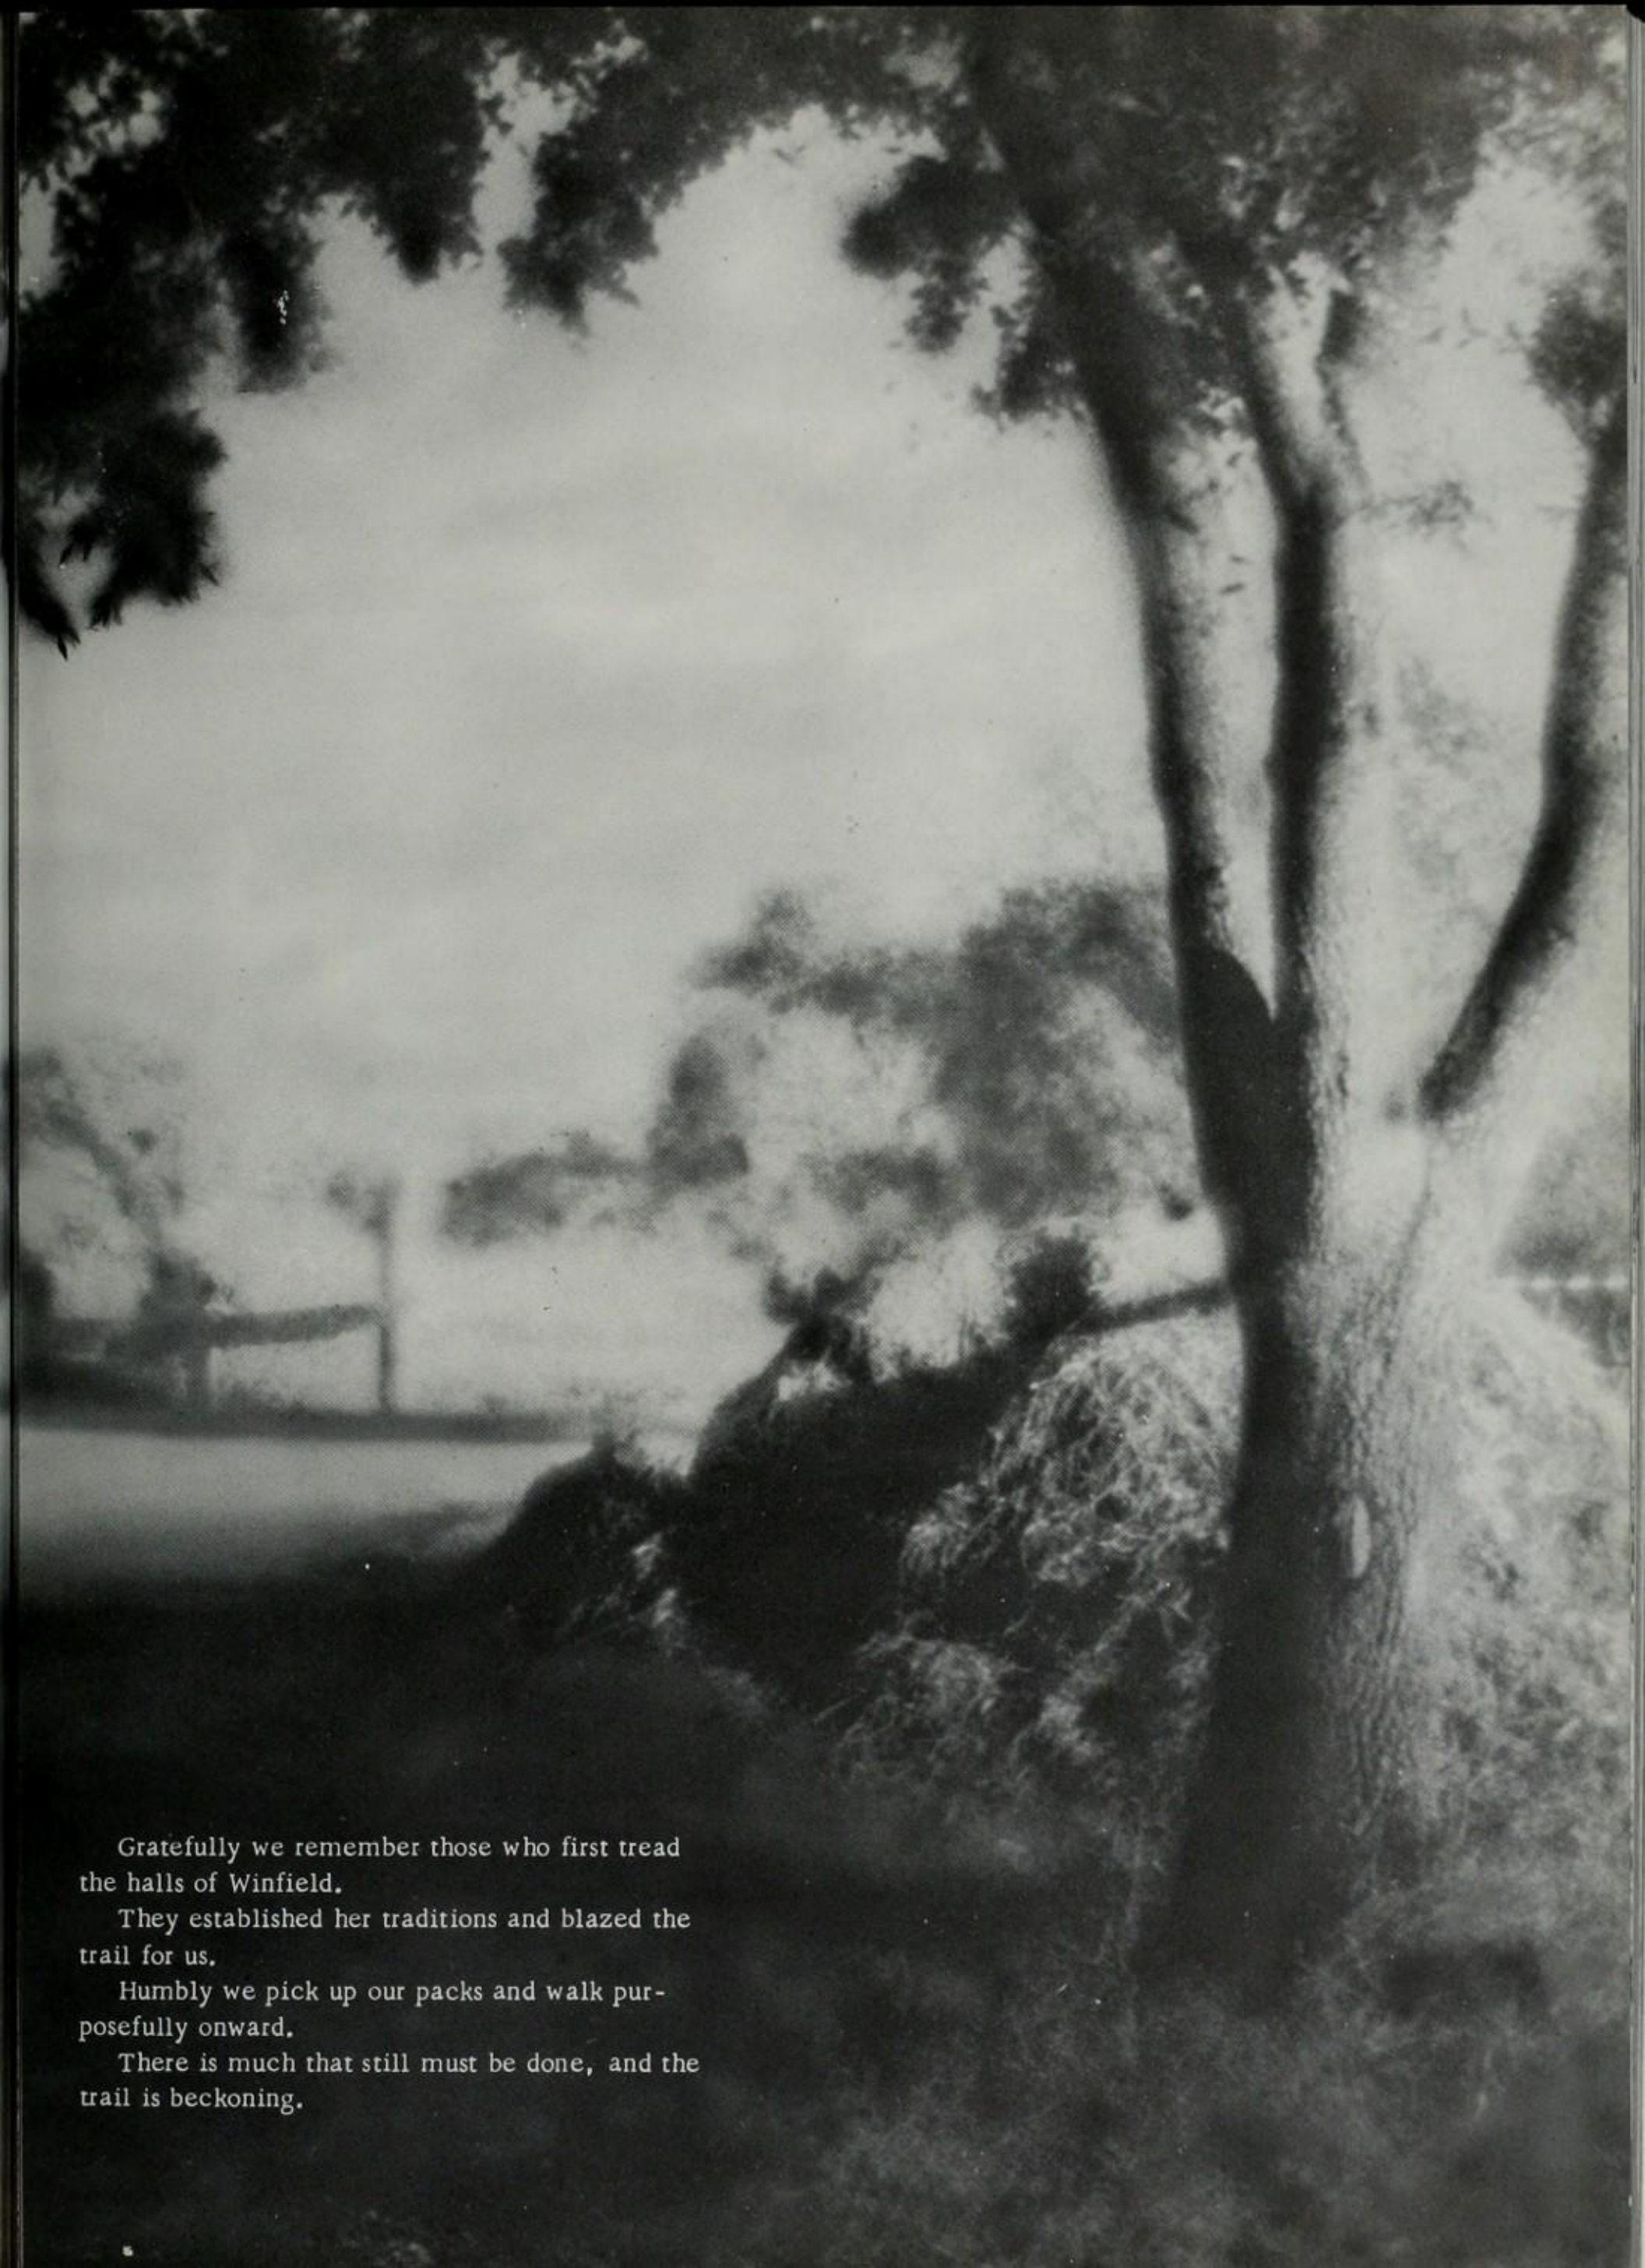
"Foreword"

The PIRATE opens.

Our trail stretches ahead.

We look backward and see the winding road that has brought us here.

We look forward toward a limitless future waiting just around the bend.



Gratefully we remember those who first tread the halls of Winfield.

They established her traditions and blazed the trail for us.

Humbly we pick up our packs and walk purposefully onward.

There is much that still must be done, and the trail is beckoning.

"When to the sessions of
sweet silent thought,
I summon up remembrance
of things past, . . ."

Superintendent's Message

CHALLENGE

This generation is by and large the most fortunate offspring of the richest nation on earth. Yet this is a disturbing age. With conflicting expectations through the national, state, and local government, it is difficult to remain loyal and patriotic.

The 1967-68 school year will bring problems we have never faced before. I challenge every student, teacher, and parent to put his best foot forward. The Winfield City School must provide leadership, not only for this community but also for the entire state.

May we remember always the words of John Ruskin:

> "Education does not mean teaching people what they do not know. It means teaching them to behave as they do not behave. It is not teaching the youth the shapes of letters and the tricks of numbers, and then leaving them to turn their arithmetic to roguery, and their literature to lust. It means, on the contrary, training them into the perfect exercise and kingly continence of their bodies and souls. It is a painful, continual, and difficult work to be done by kindness, by watching, by warning, by precept, and by praise, but above all.....by example."

Principal's Message

LONG RANGE PLANNING

Business for some time now has been developing techniques for managing a world of change; the same kind of world of change that we as educators will be living with.

Long range planning is much more than a set of techniques. It is the commitment to the idea that change is a way of life; that one cannot fight it, or reject it. We must learn to manage change.

If you subscribe to any part of this philosophy, may I suggest an old saying that could be helpful in learning to manage the change---

"God grant me the serenity to accept the things
I cannot change, the courage to change the things
I can, and the wisdom to know the difference."

In Memory

REMEMBER

Remember me when I am gone away,
Gone far away into the silent land;
When you can no more hold me by the hand,
Nor I half turn to go yet turning stay.

Remember me when no more, day by day,
You tell me of our future that you planned.
Only remember me; you understand
It will be late to counsel then or pray.

Yet if you should forget me for a while,
And afterward remember, do not grieve;
For if the darkness and corruption leave
A vestige of the thoughs that once I had,

Better by far you should forget and smile
Than that you should remember and be sad.

--Christina Rosetti

We solemnly dedicate this edition of the PIRATE in memory of Preston Alan Lyons and Stanley Lyons who were so tragically taken from our midst.

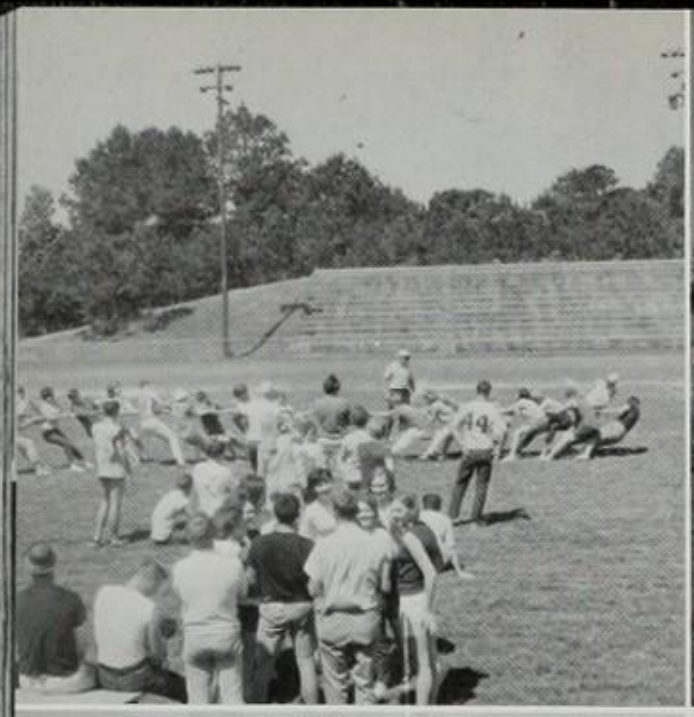
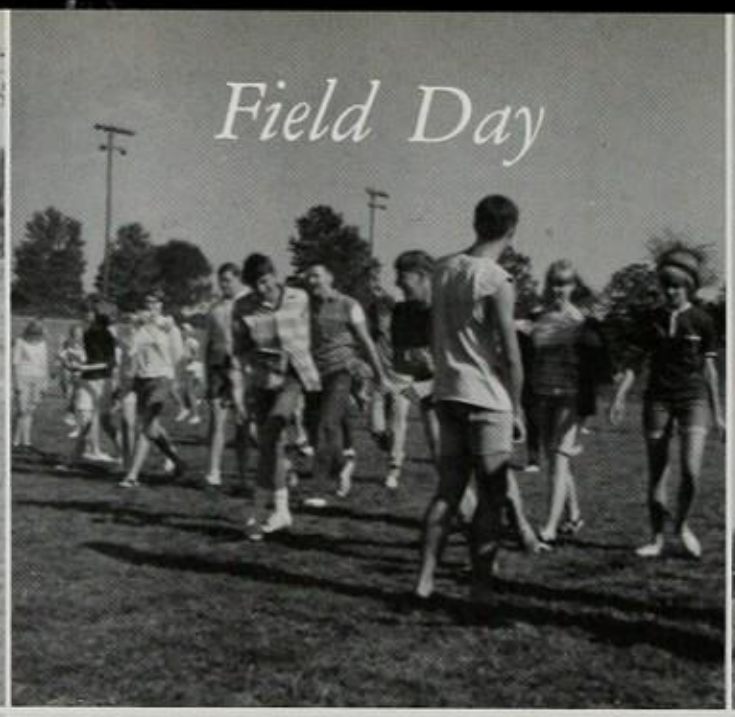
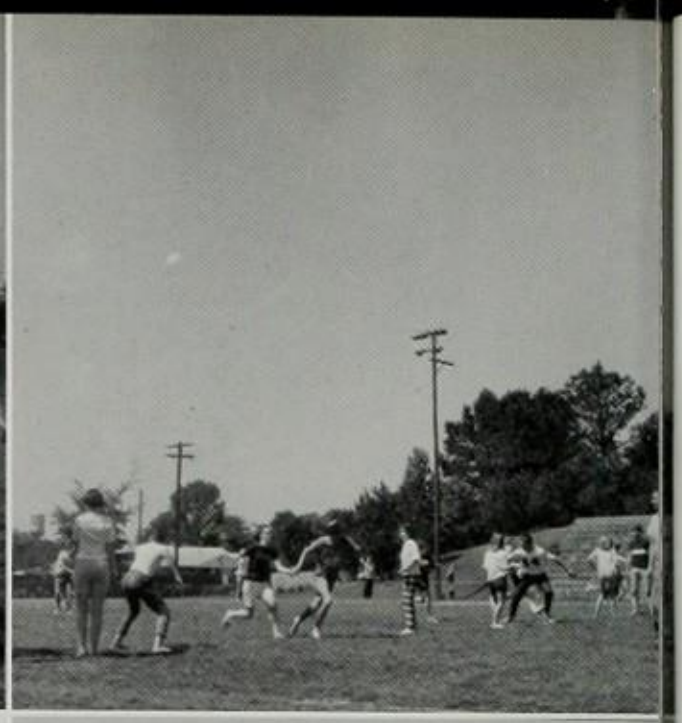
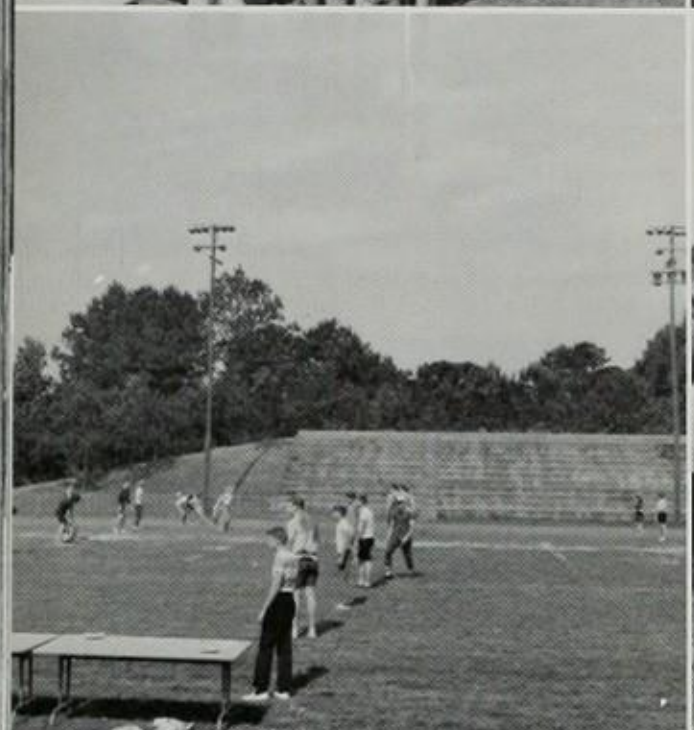
Field Day

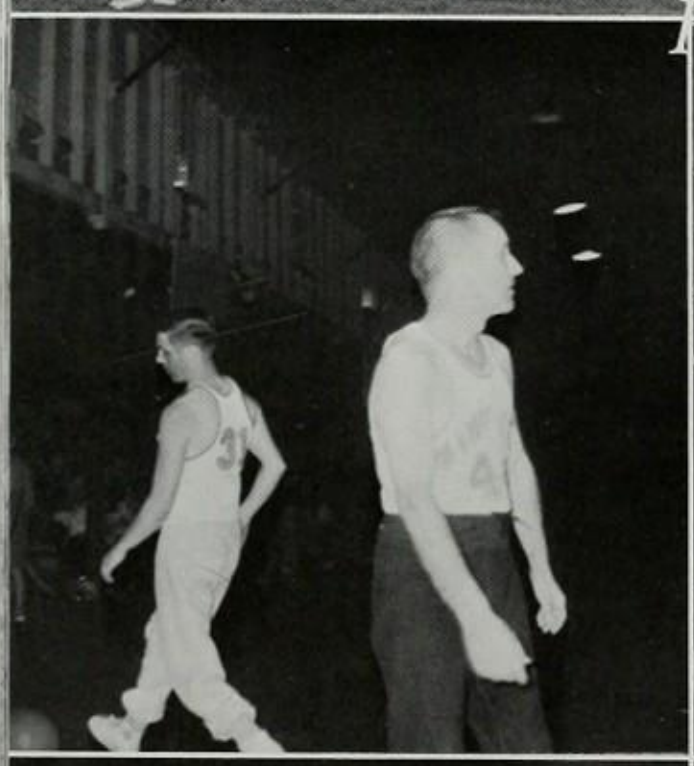


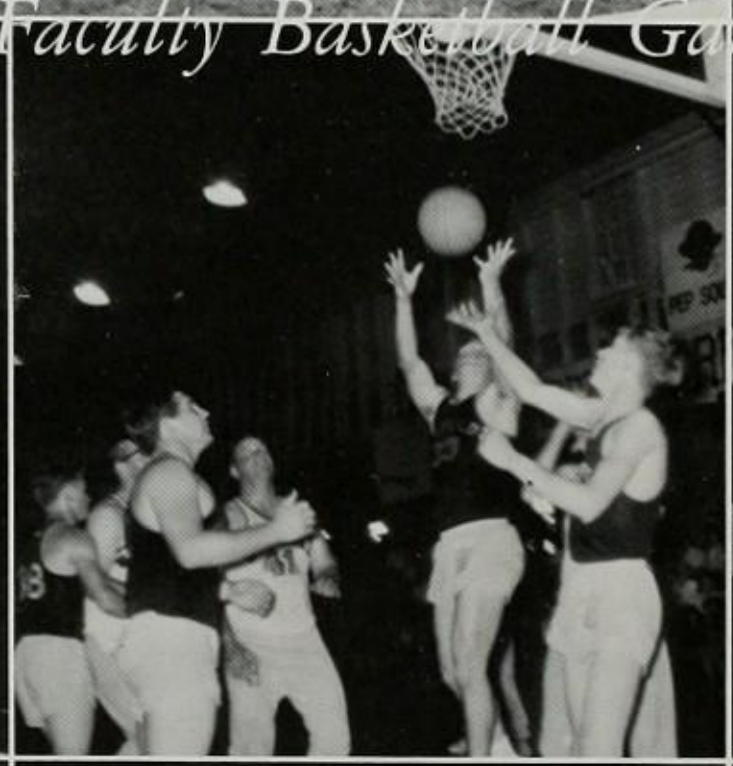


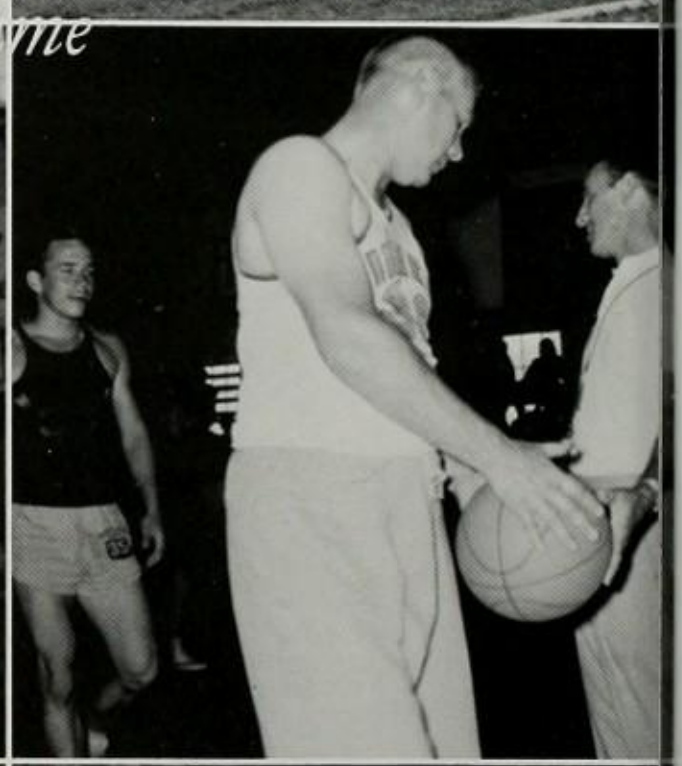


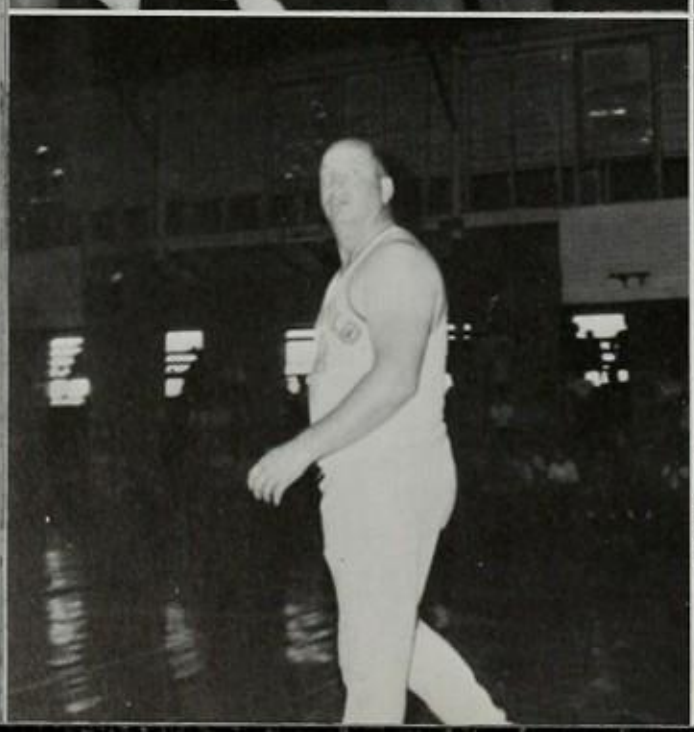


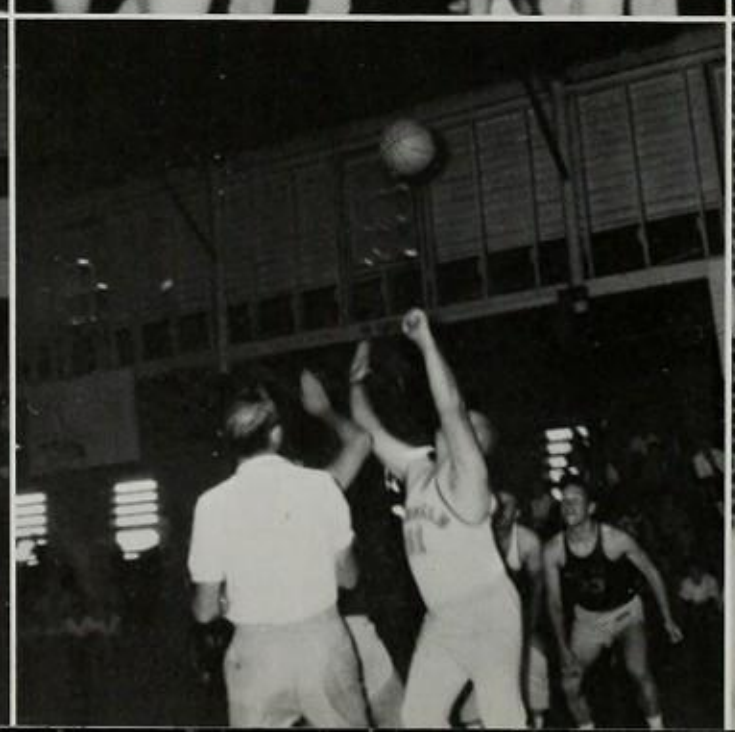
Faculty Basketball Game

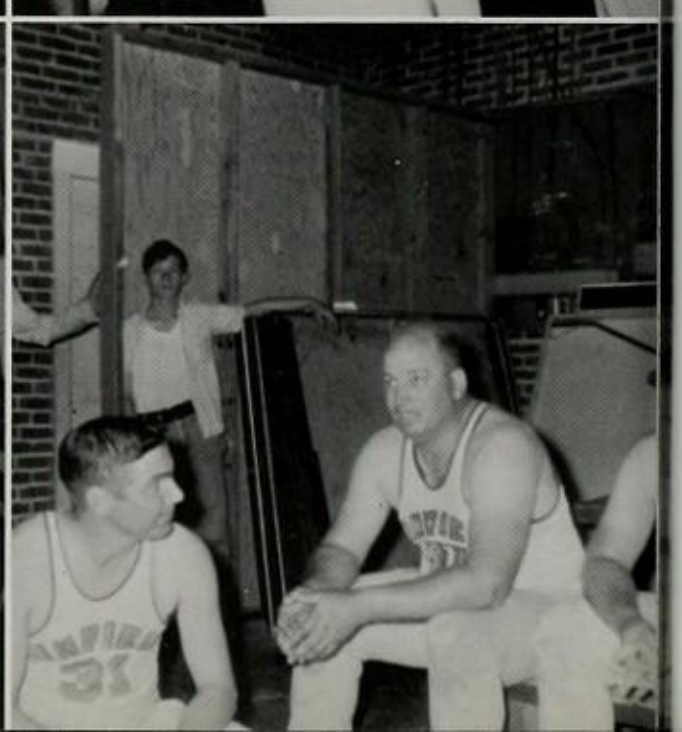




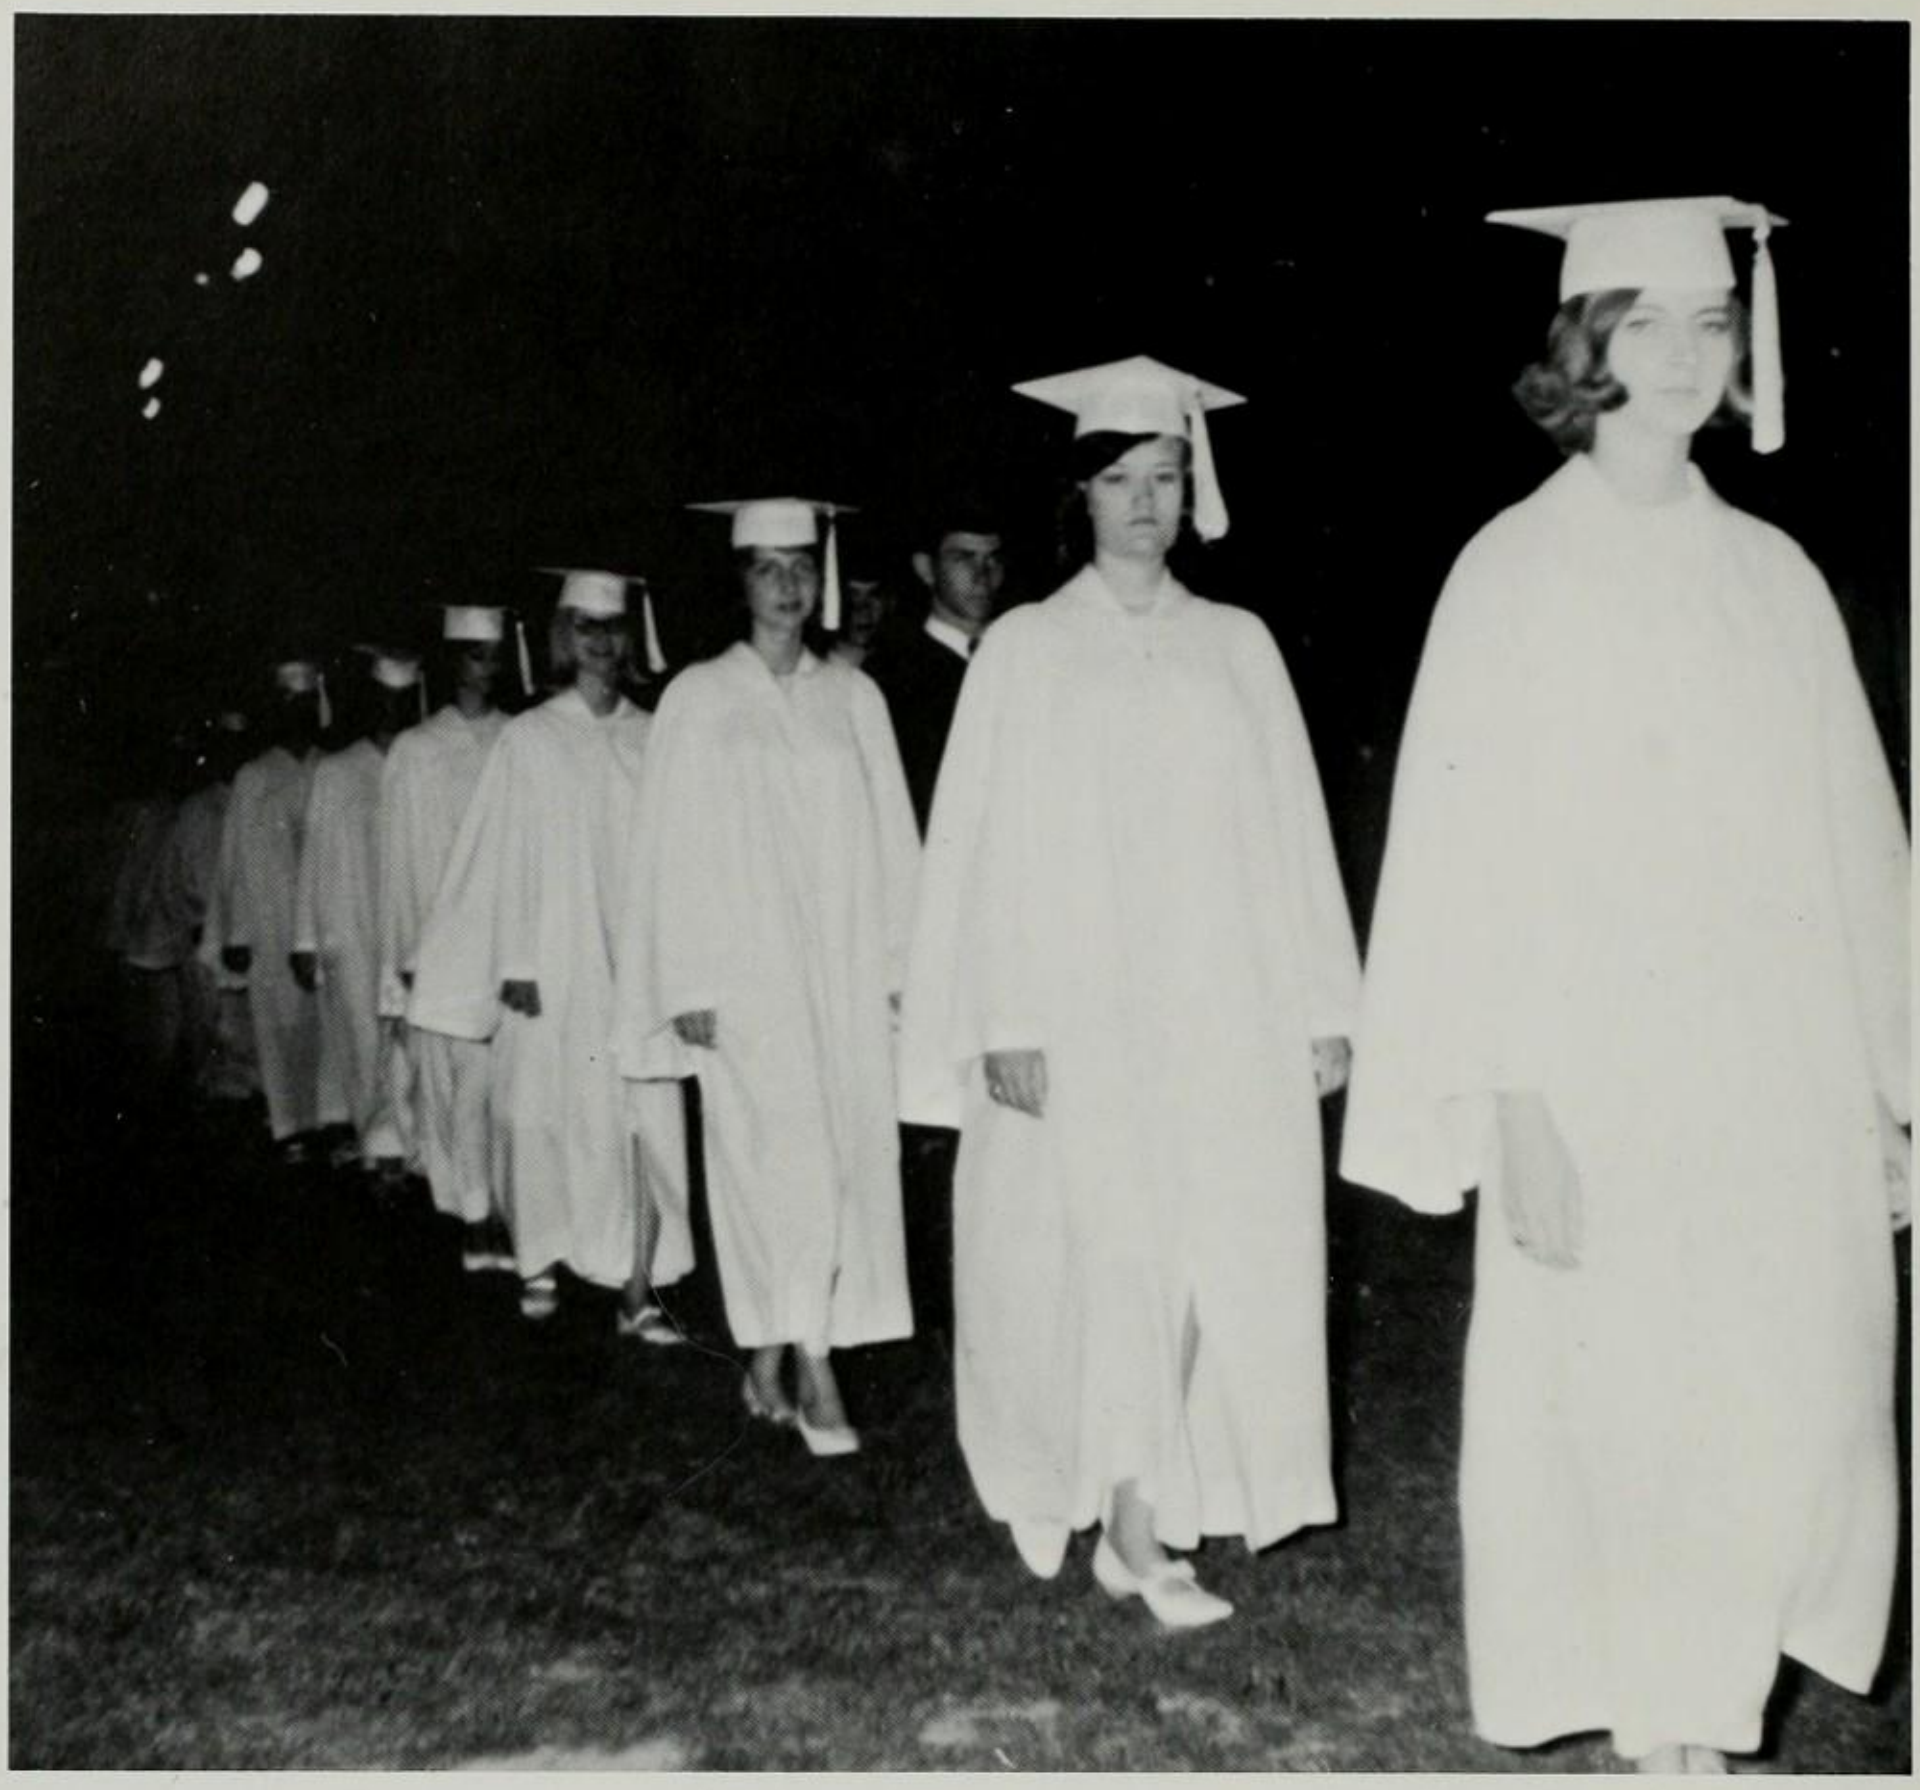


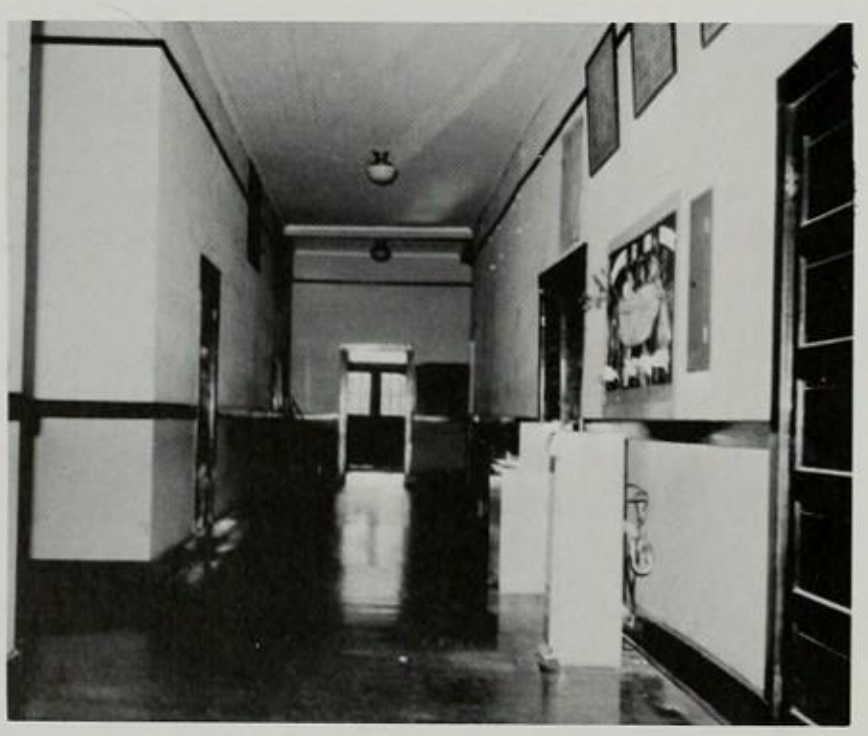






We solemnly dedicate this page of the PIRATE to our beloved photographer, Harold Tucker. He risked life and limb in order to achieve this great masterpiece. While in the act of performing this most dangerous feat, he was brutally and unmercifully tackled by hideous monsters (big, fat, football players), spoiling his perfect shot. And this-----is the result. We truly feel this dedication is most honorably deserved.





Presently it's
over...
Yet never
forgotten.
